Covering the full stack web-app experience from architecture to programming to hosting, I simply love to create new things. Building new tools to create a web experience that I would love if I were a user is a huge driving factor in my work, and that passion also fuels my hobby projects.

KNOWLEDGE BASE

C#, Javascript, Ruby, React, Vue.js, .NET, Rails, Knockout.js, Git, Azure, REST APIs, SQL, Agile, Redis

EXPERIENCE

PerkSpot | Software Engineer

2022 - Present

- Designed and delivered new product features across a React and .NET stack, collaborating with product and engineering teams from planning through deployment
- Reviewed pull requests and provided valuable feedback, as well as mentored junior engineers/interns.
- Front-line for site issues/bugs: Investigated and solved data/code issues involving Finances, Data Erasure, Product Inventory, Email Templating/Sending, Reporting, and more. Coordinated and made structural changes when necessary
- Supported DevOps with Azure configuration, Deployments (bi-weekly), Automation, and site maintenance

Completed Projects

- Built support for E-Commerce, e.g. Quick Pay options (Google Pay, Apple Pay, Venmo, PayPal)
- Rebuilt caching to support Redis
- Integrated and upgraded internal Content Management System
- Tackled technical debt, optimized old code and sped up page load times
- Integrated with external partners like Insurify, Olive, and Disney

Logistics | Dispatch Coordinator

2016 - 2021

Trek Freight | Visual Pak Logistics | Hospitality Logistics

- Tracked and coordinated truck shipments across the US

EDUCATION

Actualize | Certificate in Full Stack Web Development

2021 - 2021

- Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies

College of Dupage | Associate of Arts

2013 - 2015
